Making It Look Healthier, Younger, and More Vibrant.  
Experience Softer, Smoother, And More Sensual Skin In A Few Applications.  
Try It Today – **FREE!**

Dear Friend,

Imagine how you would feel if a friend you had not seen in a while said to you, *“You look terrific! What’s your secret? I know... you had plastic surgery!”*

You’ll hear comments like these all the time if you use Trienelle Daily Renewal Crème. This breakthrough skin care and nutrition product can help you **look 5 to 10 years younger in a few weeks!**

Trienelle discovered the precise nutrients to rejuvenate sun-damaged and aging skin.

And, in case you were unaware, the sun harms **everyone’s** skin.

Even if you **never** spent a minute sunbathing or tanning in a salon.

Over time, ordinary, everyday exposure to the sun harms your skin’s fibers. As the damage accumulates over the years, exposed skin wrinkles, develops age spots, loses elasticity, and may grow cancerous lesions.

Overexposure by tanning and burning harms and ages the skin even faster.

Fortunately, Trienelle provides the scientific solution to skin healing.

Need to see actual results? We have before and after photos showing the changes produced by using Trienelle Daily Renewal Crème.

Here’s a sample of results as documented by Trienelle customers:

- Fading of freckles and age spots
- Softened frown lines
- Elimination of crow’s feet (See the photos below)
- Dramatic reduction in the depth of facial wrinkles
- Leg itching and discomfort relieved during the first week

### How Can a Skin Crème Produce These Results?

How can a crème applied directly to the skin produce such dramatic changes? Isn’t it common knowledge that you can only nourish your skin from the inside out, by taking vitamin and herbal supplements orally?

In the past, it was the only way to deliver the exact amounts of healing nutrients to the skin.

Today, Trienelle helps you achieve Softer, Smoother, more Sensual Skin through a liposomal delivery system.... aiding active ingredients to move easily from outer to inner skin layers...from the outside in.

And while Trienelle nutrients are creating youthful-looking skin cells for you, they are also preventing skin cancer, the most potentially **dangerous** type of cancer to strike adults.

Let’s see... a quick summary...  
Trienelle skin crème will help you:

- Look 5 to 10 years younger.
- Be the envy of your friends.
- Protect you from sun damage; defend against skin cancers.

### **AND**

Trienelle will start you on your skin protection and revitalization program with a \$50 jar of its state-of-the-art advanced skin creme... **FREE.**
